

**Hawai'i 2050 Sustainability Task Force  
Fall Community Meetings  
November 28, 29, 30 & December 5, 2006**

**Summary of Discussion Notes**

During each community meeting there was an interactive segment. These notes reflect that segment in each of the community meetings held.

Some groups also raised general questions or gave feedback that was recorded during the community meetings and is reflected in the summaries that follow.

# Hawai'i 2050 Sustainability Task Force Fall Community Meetings

**Mililani Mauka Elementary School  
November 28, 2006**

## Participants

Lorraine Behan  
Kathy Best  
Carleton Ching  
Heather Ho  
Tracy Janowicz  
Russell Kokubun  
Howard Kullian

Glenn Miura  
Sharon Miyashiro  
Dick Poirier  
Pua Suli  
David Tanoue  
Ramsay Taum  
Alvin Toda

Rich Weigel  
Alvin Wong  
Pamela Young

## General Comments

- “Bottom Line” of sustainability for me is just this: The transformation to sustainable lifestyles. People are motivated to personal change at the point at which they realize they can make a difference. We must find those ways that motivate socially and ecologically responsible behavior by individuals. This is called “Micro-environmentalism.”
- Shelter for all.

## Who is responsible for ensuring sustainability in Hawai'i?

- All – Starts with “ME”
- Design professionals
- Public and private leadership
- U.S. Green Building Council
- Organized labor
- Educators/Environmental Organizations
- Neighborhood Boards
- Youth
- Military

## What words, phrases or ideas come to mind when you think about sustainability in Hawai'i? (Rank Order)

Local Energy Sources – Reduce fossil levels – Alternate energy	11
Diverse economic development	9
Coordinate with other sustainable efforts	7

Include in education system	7
Recycling - composting	6
Green Building	6
Adequate clean water and air	6
Preserve Native Hawaiian practices	6
Increase access to health care	6
Accountability of developers	6
Bring technology and medical to Hawai'i to boost economy	6
Food source - local	5
Decrease dependence - auto	5
Minimize disturbing open space	4
Alternative transportation including between islands	4
Public planning process that works	4
Living wage	3
Population control	3
Improve management fishing areas	3
Jobs closer to where people live	3
Incentive to business or individuals to be green	3
Public/Private partnerships	2
Responsible/accountable use of State funds	2
Preservation of floral and fauna	2
Aging populations	2
Allow for increase density in existing urban areas	2
Supporting major industries i.e. Tourism, Keep Hawai'i Beautiful, Military (places to train)	1
Infrastructure - keep pace with development	1
Advances – Sports Tourism	1
Creating more land mass	1
Grass roots democracy	1

## Who is responsible for ensuring sustainability in Hawai'i? (Group 1 of 3)

- Voters
- Legislature
- Everyone
- Schools – Create non-partisan entity/cross-section
- Department of Planning and Department of Transportation – Should be working together
- Businesses
- Department of Land and Natural Resources
- Board of Water Supply

## Who is responsible for ensuring sustainability in Hawai'i? (Group 2 of 3)

- Us – the community
- Elected Officials – Federal, State & Local

- Us – the government (appointed civil servants)
- The next generation (we need to educate them)
- The HI 2050 Sustainability Task Force
- Military (owns 20% of State’s land)
- Visitors
- Business Community – Tourism, Energy, Waste Management and Developers
- Unions
- NGOs – Non profits
- Educational institutions, including schools

**Who is responsible for ensuring sustainability in Hawai‘i?** (Group 3 of 3)

- We, Us, I (individual responsibility) and You
- Elected Officials
- Department of Sustainability for all sectors
- Youth under 30 years old
- Neighborhood Boards
- All Government Agencies i.e. DBEDT, UH/DOE, DLNR
- UH Public Policy Center
- Businesses/Corporations
- Military
- Nonprofits
- Unions
- Parents
- Community Leaders
- Faith Based Communities
- High-tech use – supporting technology

**What words, phrases or ideas come to mind when you think about sustainability in Hawai‘i?**  
**(Rank Order)** (Group 1 of 3)

Building communities to care for themselves	16
Use local resources effectively	15
More self-sufficiency in energy	13
Balancing people’s needs and resources	13
Affordable housing	13
Preserve native ecosystem, culture and natural resources	12
Island appropriate development	12
Sustain character of community	10
Self sufficiency	10
Bring native/cultural practices into practice today (ahupua`a)	9
Learning to do with less	8
Maintain or lower vulnerability to crises	8
Import substitution – Rely on local vs. Import	8
Balance use and replenishment	7
Multigenerational QOL	7

Maintain and regenerate natural resources	7
Sustainability vs. Exploitation	6
Organic farming	6
Land-based resources (water, land)	5
Don't pave it over	4
Define resources	4
Ability to keep doing what you are doing	3
Support local industry	3
Maintain desirable quality of life	3
Create no waste	3
People – Planet – Profits	2
Maximize use of resources – High school classes host culture	2
Bikes for transportation (alternatives)	2
Keeping things OK	0
Grassroots Program (Aina – Jack Johnson)	0
Public/land use initiatives	0
DOD – Military	0
State/County agency cooperation	0
Transfer decision on use of land and sea to local ahupua`a (re-empower)	0
Statutory Authority	0

**What words, phrases or ideas come to mind when you think about sustainability in Hawai'i?**  
**(Rank Order)** (Group 2 of 3)

Self-dependent energy and food self-sufficient	9
Conservation of natural resources	9
Opportunity for all people to participate in the economy	8
Protecting influx/entry of invasive species and control established invasive species	7
Recycling	7
Balancing economic, social and environmental values (3 e's)	7
Strong, local communities	7
Keeping land use categories in balance	7
Preserve ocean environment	6
Respect for all races, cultures and religions	5
Clean and healthy drinking water and avoiding depletion of water supply	5
Preventing over population	4
Avoiding degradations (water, land and air)	4
An indefinitely sustainable waste management	4
Pursue honesty in government	4
Learning from and understanding Hawaiian culture and how to	4

apply sustainability	
Passing knowledge to the next generation (education)	4
National and international connectedness with respect to sustainability	3
Educated citizenry active in government and community activities	3
Meeting our needs without impacting future generations needs	3
Safety (shelter, etc..) in event of disaster	2
Make sure we don't get overrun by tourist	2
Resolving conflicts between residential and economic industries (such as tourism)	2
Fewer automobile on the road	2
Educating people about the "3 e's"	2
Separating residential and tourist communities	1
Increase awareness of choices and how they affect sustainability	0
Looking to nature for sustainable solutions	0
Acknowledging interconnectedness and mutual dependence of all societies sectors	0

**What words, phrases or ideas come to mind when you think about sustainability in Hawai'i?**  
**(Rank Order)** (Group 3 of 3)

Green building	13
Energy independence	12
Restore native forests and wetlands	10
Lots of green space and access to mountain and ocean	10
Aha (self governance) according to ahupua`a	9
Diversified agriculture	8
Public education system that works	8
Hawai'i as global leader in sustainability	8
Positive material cycles – productive use of all materials	8
Individual and group responsibility and accountability	8
Hawai'i becomes a model for carbon neutrality	7
Community that cares for its people	6
Building codes that support sustainable design	6
Locally owned economy by local people	6
Environmental health	6
Leaders who lead and listen	6
Social wellbeing	5
Adequate and equitable water supply	5
Preservation of what we have i.e. water, healthy environment, lifestyle	5
Limiting population growth	5
Shared understanding of what makes Hawai'i unique	5

Public transportation that works	4
Living wages	4
Accommodating a rapidly aging population	4
Discourage second home ownership – promote residential homeowners	4
Economic stability	3
Civic engagement	3
Decisions made for residents vs. tourist. Make locals the priority	3
Multi use development	3
Building a community of place	3
Planned spaces for youth	3
Inclusive society vs. exclusive at all levels	3
Tolerance for diversity	2
Define Hawaiian values we want	2
Prison system that works	0

## **Who is responsible for ensuring sustainability in Hawai'i?** (Group 1 of 2)

- Private companies
- Parents
- Government – Laws – Policies
- Individuals/everybody
- Hawaiian organizations, nonprofits, community groups
- Children/youth
- Churches/temples/mosques
- Communities – Neighborhood Boards
- US Military
- Teachers/BOE
- Physicians

## **Who is responsible for ensuring sustainability in Hawai'i?** (Group 2 of 2)

- Everyone
- Communities
- State and City Planning Departments – Proactive rather than reactive
- Our youth
- Educational system – Teaching responsibility
- Hawaiian Civic Clubs – Actively playing your role
- Businesses – Self-sustaining services
- Elected Officials – Implement laws and policies, and change those when necessary

**What words, phrases or ideas come to mind when you think about sustainability in Hawai‘i?**  
**(Rank Order)** (Group 1 of 2)

Energy self-sufficient	10
Preservation of natural environment, stewardship and responsibility (malama)	9
Land base	6
Educating our children about sustainability/values	6
Clean air and water	6
Alternative energy (solar, wind)	6
Ocean protection/fisheries management	6
Alternatives to tourism (for economy)/keeping land ownership local	5
Affordable housing	5
Balance between development and agriculture “knowing when to say no”	5
Affordable taxes	4
Diversified farming	3
Infrastructure	3
Foresight in governance	3
Growing oil crops (bio-fuels)	2
Prosperity	2
Multigenerational responsibility and awareness	2
Independence (community & personal), job security, security	1
Dependence upon natural resources, food, healing plants	1
Maintaining agriculture	1
Plan to deal with climate changes	1
Growing and exporting our own food	1
Responsibility – Kuleana	0
Job security	0
Security	0

**What words, phrases or ideas come to mind when you think about sustainability in Hawai‘i?**  
**(Rank Order)** (Group 2 of 2)

Education	7
Water quality/availability	7
Solar energy	6
Sustainability of host culture	6
Recycling	6
Quality of life	5
Environment	5
Managing waste streams	5
Fuel	5

Global warming/rising sea levels	4
Bio-diesel	4
Lead standards and building green	4
Affordable quality healthcare/partnerships in healthcare	4
Transit	3
Agriculture	3
Local production	3
Balance between visitors and local inhabitants	3
Maintain culture	3
Shared/common results/goals	3
Wind farm	2
Cradle to cradle	2
Aquaculture	2
Green space	2
Food independence	2
Systemic thinking ahead	2
Preservation	2
Recognize limits	2
Perpetuation	1
Quality jobs	1
Targeted density vs. Urban sprawl	1
Tuna farming	1
Living wages	1
Biodegradable possibilities	1
Geriatric care	1
Affordable housing	1
Balance between jobs and recreation	0
Community identities	0
Respect for nature	0
Places for recreation	0
Directed and controlled growth and redevelopment	0

**Who is responsible for ensuring sustainability in Hawai‘i?** (Group 1 of 6)

- Electronic media
- Everyone
- Teachers at all levels – K thru PhD.
- Business Owners
- Churches – Communities of faith
- Landowners/Managers
- Developers
- Elected Officials
- Appointed Officials
- Civil Servants
- Military
- U.S. Government and World Leaders
- Youth
- Farmers
- DOE
- Managers/Supervisors at all levels
- CEOs
- Policy Advisors
- Consumers
- Utilities
- Community Foundation
- Healthcare Professionals
- Visitors

**Who is responsible for ensuring sustainability in Hawai‘i?** (Group 2 of 6)

- Current population of residents and visitors
- Our leaders – Elected, civic, business community, educators and federal government
- Our youth
- Land owners
- Military
- Doctors, nurses and health care professionals
- All professionals

**Who is responsible for ensuring sustainability in Hawai‘i?** (Group 3 of 6)

- County, State, Federal
- Private businesses
- Communities
- Individuals/Citizens
- Universities

**Who is responsible for ensuring sustainability in Hawai‘i?** (Group 4 of 6)

- Us – Each individual
- Business
- Developers
- Anyone/organization that has impact
- Regulators
- Tourist industry

- Farmers
- Educators
- Elected Officials
- Voters
- Cultural/Hawaiian leaders
- Military
- Children
- Government
- Environmentalists
- Scientists/researchers
- Media
- Fishermen
- Building owners
- Religious groups

**Who is responsible for ensuring sustainability in Hawai‘i?** (Group 5 of 6)

- Everybody
- Government put restrictions on for-profit development
- Education system
- Community planning and decision making; involving everyone
- Airlines
- Media

**Who is responsible for ensuring sustainability in Hawai‘i?** (Group 6 of 6)

- Everyone
- Elected Officials
- Legislators
- Investors
- Policy Makers
- Educators
- Consumers
- County, State, Federal Agencies
- Businesses
- Utilities
- Visitors

**What words, phrases or ideas come to mind when you think about sustainability in Hawai‘i?**  
**(Rank Order)** (Group 1 of 6)

Energy – Independence	13
Responsible businesses – Cradle to cradle/grave. Taking back and recycling products.	12
Locally-owned assets, resources, future state composting facility (no more Styrofoam on the islands)	11
Community based decision making on all critical issues	9
Viable transportation – alternatives	9
No homeless	8

Educate Children – Respect for land	7
Completely integrated policy making	7
Integration – Nature – Everyday life	6
Cooperate working together – common good	6
Educate/Community/Industry – Integrated	6
Throwing away – recycling society	6
Not “highest” and “best use” approach - More of a stewardship approach	6
Preservation – Oceanfront land	5
Community consensus regarding land use and development	5
NIMBY – In balance with thinking about the future	5
Curb population growth	4
Kids still have sense of place	3
Waste is food – Outputs become inputs	3
Huge market – locally grown food	3
Appreciation for what is in the front of you	3
More knowledge regarding Hawaiian culture	2
Education system for the future – prenatal to death (sustainability vision)	2
Healthy buildings – natural sunlight/ventilation	1

**What words, phrases or ideas come to mind when you think about sustainability in Hawai‘i?**  
**(Rank Order)** (Group 2 of 6)

Conserving our resources like native Hawaiians used to (ahupua`a management) and maintaining fishponds, ocean and farmlands	16
Growth while maintaining quality and quantity of natural resources	11
Enough water for the future	9
Affordable housing and plenty more available to rent/sell for local people ~ maintain affordability	9
Balanced economy – thriving, lots of diversity – independence	9
Quality of life – maintain quality of life	8
Good quality education for all	7
Balance between productions and consumption	6
Enough food	5
Conscientious population regarding decisions and how we act	5
Less income disparity	4
Cap on the number of visitors. Residents first/visitors next. Ratio of residents to visitors	3
Spiritual values, working together	3
Cap on population	3
Growth that does not exceed natural resources	2

Communities able to get from one to another	2
A sense of community	1
Education about sustainability	1
Seeing connections between limits and opportunities	1
Less import	1
Affordable rentals as well as for sale	0
Self perpetuating	0
Maintaining fish ponds, ocean and farmlands	0

**What words, phrases or ideas come to mind when you think about sustainability in Hawai‘i?**  
**(Rank Order)** (Group 3 of 6)

Renewable energy	13
Enforced recycling (hotels, businesses, residential)	10
Protected watershed	9
Preserve open spaces	9
Build using sustainable practices	9
Bicycle infrastructure	9
Maintain cultural diversity	8
Limit development/construction	8
Preserve agricultural land	8
Self-sufficiency	7
Affordable housing/food	7
Save beaches (buy back/reduce development hardened surfaces erosion...)	6
Better public transportation	6
Healthy and in balance	5
Stopping of extinction of species	5
Strong education	5
Regenerate reefs with new D.C. technology	5
Reduction of waste	5
Support Hawaiian made food and products	4
Reduce runoff (into ocean)	4
Reduce crime/drugs	3
Create/maintain development free areas	3
Economy (renewable/sustainable)	3
Stronger families	3
Improve fisheries (protect endemic species)	3
Ocean based technology	3
Reduce sources of water pollution	3
Keep Hawai‘i, Hawai‘i	3
Reduce traffic congestion	2

Strong sense of community on Oahu (like Neighbor Islands)	2
Ahupua`a Ike	2
Limit population (what to do?)	2
Alive	2
Better local jobs	1
Encourage tourism	1
Respect for our children	1
Air/Land/Ocean development based on traditional empirical knowledge	1
Free bus service (paid by increased gas tax)	0
Preserve the “Beach Boys”	0

**What words, phrases or ideas come to mind when you think about sustainability in Hawai‘i?**  
**(Rank Order)** (Group 4 of 6)

Renewable energy	16
Increase density and mixed use building development – “smart growth”	10
Balance	10
Open spaces	9
Green technology and design	8
Quality of life	8
Economic viability	7
Education	7
Funding	7
Effective legislation and laws	7
Holistic health/alternative medicine	7
Hawaiian values	6
Social equity	6
Building civic responsibility and community pride	5
Reduce consumption	5
Ahupua`a	5
Smart waste handling	5
Stricter standards for new development/housing	4
Mass transit	4
Energy independence	4
Eco-friendly/green tourism	4
Control mass consumerism	3
Progress	3
Changing generational habits i.e. use of car, sprawl	3
Walk-able community	3
Bike trails	3

Limit population	3
Recycling	3
Pollution control	3
Conserve	3
Diverse wildlife	2
Act today with tomorrow in mind	2
Organic agriculture	2
Institutionalize sustainability	2
Reduce/eliminate transit	2
Biodegradable products	2
Alternative sewage treatment	2
Elder friendly	2
Clean air	2
Community participation	2
Use today with tomorrow in mind	1
Fishing regulations	1
Clean water	1
Relation with nature	1
Use, replace, restore	1
Taro	1
Appreciate and use outdoors	1
Simplified lifestyle	0
Growing your own food	0
Being proactive vs. reactive	0
Robust – not vulnerable to external forces	0
Eliminate drugs	0

**What words, phrases or ideas come to mind when you think about sustainability in Hawai‘i?**  
**(Rank Order)** (Group 5 of 6)

Government that adheres to concepts of sustainability – No lip service	11
Diversified economy	8
Visionary leaders who inspire the people	8
Planning for our children’s future	7
Responsible and controlled growth	7
Evaluate our entire economic base – Keep what is good	7
Alternative thoughts – open mind, thinking outside of the box	6
Taking care of the land and its people	6
Preserve and maintain natural resources	5
Self-sufficiency	5
Take care of our most needy and help them care for themselves	5

Honoring our native Hawai'i and other cultures	4
Acceptance of responsibility by individuals, groups, and government	4
Keeping what makes Hawai'i unique and special	4
What we need to do to keep younger generations in Hawai'i? Ask the students.	4
Affordable housing	4
Jobs that provide livable wages	3
Evaluate tourism and its role in 2050	3
Find the aloha spirit again	3
Defining capacity and its limits	3
Inclusiveness	3
Partnerships between business, labor and management to sustain our way of living	3
Health - sets mark as to what is working and what's wrong	3
Evaluate agriculture and its role in 2050	2
Shared core values	2
Equal opportunity	2
Fix our failures	1
Independence and interdependence. No entity is alone; everyone together for common goal	1
Relevant and quality education	1
Understanding water resources prior to development	0

**What words, phrases or ideas come to mind when you think about sustainability in Hawai'i?**  
**(Rank Order)** (Group 6 of 6)

Ecosystems <ul style="list-style-type: none"> <li>- Functioning ecosystems</li> <li>- Ahupua'a concepts (ecology) and moku councils (resource management)</li> </ul>	16
Transportation choices <ul style="list-style-type: none"> <li>- Bicycle friendly</li> <li>- Mass transit</li> <li>- Pedestrian friendly</li> </ul>	12
Maintenance of and abundance of natural resources	10
Food self-reliance	10
Energy self-reliance	9
Pristine oceans	9
<u>Truly</u> affordable housing	9
Improve incentives for clean renewable energy <ul style="list-style-type: none"> <li>- Reduce/eliminate fossil fuel use</li> <li>- Carbon neutrality</li> </ul>	9
Stringent control of dangerous invasive species, land and water	9

Adequate and equitable water supply	8
Affordable/free higher ED for residents	7
Encouraging and educating about zero population growth	6
Decrease/eliminate light pollution	6
Open space/green building	6
Incentives for businesses to be socially conscious – panel incentives to share profits	6
Have Hawai'i as a money destination reduce economic leakage	6
Meaningful jobs at higher skill levels	6
Incentives for business to encourage profit sharing	5
Conditions where human spirit can thrive	5
Attitudes should be based on malama, not money	4
Adequate sewage disposal	4
Increased use of community land trust for affordable housing	4
Living wages	4
Experience native plants and wildlife statewide	4
Ecology based development	3
Ability for mixed zoning to allow diverse living	3
Positive material flows	2
Eliminate homelessness	2
Living with future generations in mind	2
Eco-economy	2
Balance between urban and nature	1
Gross international happiness – World vs. U.S. Dream	1
Sustainable net product	1
Eliminate ice usage and green harvest	1
